

## **Activity Class by Activity Code**

**The Activity Class by Activity Code documents provide a summary of revenues, expenditures and transfer by activity class and then by activity code for the selected organization levels.**

Activity codes further classify transactions within Banner Finance. Departments set up activity codes to meet their business needs. Uses of activity codes include classifying temporary units of work, short duration projects or additional functional classifications. Activity class codes group activity codes together for reporting purposes.

### **How to run the document you want**

Click the Activity Class by Activity Code option on the Finance Reporting Menu. You will then be prompted to complete the report filters below.

### **Report filters**

1. **Calendar Month and Year (Required):** Select the calendar month and year corresponding to the last fiscal period to include in the report from the drop-down menu. CURRENT and PRIOR are displayed for the current month and previous month respectively. These options are useful when creating subscriptions for the report to run each month automatically.
2. **Organization Hierarchy Levels** (Optional on YTD report only): Move the desired organization levels from the Available box to the Selected box. The hierarchy levels are listed in a tree view meaning that you can expand the level by clicking on the arrow to the left of the name. Using that approach you can select the element you want and move to the Selected box using the arrows in the middle (or double-click on it). Alternatively, you can move the hierarchy name (e.g. FIN L5 – Department for Prompt) to the Selected box. Then click the Empty link and select your desired elements. More than one selection can be made. If no selections are made, the report will run for all organization levels that you have access. The document will populate with all organization hierarchy levels below the selected level.
3. **Account Reporting Category Prompt** (Optional): Select the reporting categories that you would like to include in the document: Revenues, Expenditures, or Transfers. The default setting is to report all categories. If there are categories you would like to remove from the document, remove the check in the box to the left of the category.

When you have completed your selections, click Run Document at the bottom left corner.

### **Report Views**

Use the drop-down lists at the top of the document to filter your results as needed.

### **Tips**

Click the options menu on the toolbar (3 horizontal lines) to print, export to PDF, re-prompt, or schedule delivery.

Open the underlying report (data set) by clicking the Data Extract link. To download to excel, click the "Report Home" drop down menu, and select "Export > Excel with...". Complete the export options as desired.

**NOTE**

This document displays output based on the current Banner set up for fund, account, and organization. For example, if the organization code on a fund has been changed from 012301 to 012302, all activity for the fund will be reported under organization 012302 regardless of what time frame the report is submitted for.
