

Changes in Tax Law Regarding Moving and Relocation Expenses

Effective 1/1/18, the university Moving and Relocation Procedure 20345 is under revision due to the new Federal Tax Laws which resulted in all moving and relocation reimbursements being taxable income to university employees (including payments to common carrier companies on behalf of employees). New guidance will be available soon. University department should communicate to new employees that all moving and relocation payments are 100% taxable effective 1/1/18.
